## **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the prior art, either singly or in combination, fails to anticipate or render obvious, the limitations of: moving the surface in a first direction relative to the long beam while irradiating a second laser beam having a fundamental wave into the surface so as to overlap with a region irradiated with the first pulsed laser beam at the same time as the first pulsed laser beam, and wherein the energy of the second laser beam is modulated in synchronization with a pulse oscillation of the first pulsed laser beam, as required by independent claims 11-12, 21-22, and 55-56.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
